

AAPP HDR Top-Up Scholarships

From 2020/21, the AAPP has a budget for a number of HDR top-up scholarships.

From the November 2021 scholarship round, all AAPP HDR projects will receive an AAPP top-up scholarship (ie. pre-award) to make them more competitive, relative to other programs, and thus attracting higher quality students in the UTAS competitive HDR rounds.

All AAPP HDR projects must be approved by the AAPP Program Leader in consultation with the Project Leaders. Only approved AAPP HDR projects may receive an AAPP top-up scholarship.

The AAPP HDR top-up scholarships are valued at \$6,000 per annum and are payable from start of candidature only for a period of up to 3.5 years (full time equivalent). The AAPP HDR top-up scholarship includes provision of paid sick leave and maternity leave.

Funding for top-ups is limited. The number of top-up scholarships is not fixed and is subject to other demands on the AAPP budget in any given year.

All HDR projects must be approved through the Service Portal in order to be advertised. You can follow the workflow process here: [HDR project/applicant summary workflow](#)
